Summary

Security GRC analyst experienced in IT audit, risk assessment, control effectiveness evaluation, and compliance across NIST SP 800-30, NIST SP 800-53, NIST CSF, CIS Controls, ISO 27001/27002, ISO 27005, SOC 2 Type II, and Trust Services Criteria. Conducts gap analyses, evidence-based control assessments, third-party risk reviews, and risk mitigation tracking, translating technical findings into risk metrics, KRIs, and management-ready reporting.

Skills

- **GRC & Audit:** IT Audit, ITGC, Governance, Risk & Compliance, Risk Assessment, Risk Mitigation, Risk Quantification, Risk Registers, Gap Analysis, Control Assessment, Operating Effectiveness, KRIs, Risk Metrics, POA&M, CAPs, Remediation Tracking, Compliance Monitoring, Continuous Monitoring, Audit Readiness, TPRM, Threat Modeling, IAM, SoD, Vulnerability Management
- **Frameworks:** NIST SP 800-30, NIST SP 800-53, NIST CSF, NIST RMF (800-37), CIS Controls/Benchmarks, ISO 27001/27002, ISO 27005, SOC 2 Type I/II, Trust Services Criteria, PCI DSS, GDPR, HIPAA, COBIT, CCM
- **Technical:** AWS, Azure, Cloud Security, Excel, Python, pandas, SQL, Wazuh SIEM, OpenVAS, Nmap, CVSS

Experience

Cybersecurity Intern | The Cheesecake Factory

Jun 2025 – Aug 2025

- Conducted IT audit assessments of **6+** third-party cloud applications for data leakage and access risk by reviewing **OAuth** scopes, **SSO/MFA** status, **IAM** configurations, and data classification alignment.
- Compared firewall and **SIEM** configuration evidence against **CIS Benchmarks** and internal baselines; documented **12+** control gaps with severity, risk mitigation recommendations, and remediation owners.
- Developed Key Risk Indicators (KRIs) from phishing simulation and incident trends across **30+** cases, translating patterns into risk metrics and security awareness findings for compliance stakeholders.

Security Analyst | VESIT (University of Mumbai)

May 2023 – Aug 2024

- Maintained IT audit and **ITGC** evidence for incident, access, and remediation controls across **200+** endpoints using **Wazuh SIEM** and **Windows Event Logs** to support quarterly compliance reviews and continuous monitoring.
- Validated **OpenVAS** and **Nmap** vulnerability management findings against **CIS Benchmarks**, assigned **CVSS**-based severity for risk quantification, and maintained remediation tracking for IT governance stakeholders.

Security Operations Intern | Telenetworks Technologies

Dec 2022 – May 2023

- Reviewed baseline configurations for **25+** systems against **ITGC** requirements; documented **8** deviations with risk impact, owner, and remediation timeline.
- Organized IT audit evidence packages for **4** compliance assessments supporting audit readiness, including configuration exports, log samples, and closure documentation.

Projects

- **BASTION** | **Security Control Assessment & Evidence Tracker** – Built a **Python/pandas** control-mapping workbook aligning **120+** **NIST SP 800-53** and **CIS Controls** to policies, evidence sources, and control owners using **NIST SP 800-30**; conducted gap analysis across **5 ITGC** control families, converting **28** evidence gaps into corrective action plans with risk mitigation priorities, risk treatment decisions, and closure tracking.
- **MANDATE** | **Third-Party Security & Data Handling Review Tracker** – Reviewed **50+** vendor questionnaires as part of third-party due diligence against **SOC 2** Trust Services Criteria, **ISO 27001/27002**, encryption, logging, incident response, and business continuity; built **Python/regex** checks to flag high-risk patterns and defined **KRIs** to prioritize follow-up reviews.
- **SAFEGUARD** | **Access, Logging & Cloud Control Review Workbook** – Created an **Excel** workbook for **IAM** and **ITGC** controls covering **SSO/MFA**, privileged access, segregation of duties, encryption, and log evidence; mapped observations to threat modeling scenarios, assigned remediation owners, and produced management-ready summaries.

Certifications

- **AWS Certified Cloud Practitioner** | **Microsoft SC-900** | **Google Cybersecurity Professional** | **Microsoft AZ-900** | **CISSP** (Expected July 2026)

Education

California State University, Long Beach

Master of Science, Information Systems (Cybersecurity) | GPA: 3.44

Aug 2024 – May 2026

Long Beach, CA

University of Mumbai

Bachelor of Engineering, Electronics (Honors: Cybersecurity) | GPA: 3.8

Feb 2020 – May 2024

Mumbai, India
